The figures provided are as a result of official manufacturer's tests in accordance with EU legislation with a fully charged battery. For comparison purposes only. Real world figures may differ. CO₂, fuel economy, energy consumption and range figures may vary according to factors such as driving styles, environmental conditions, load, wheel fitment, accessories fitted, actual route and battery condition. Range figures are based upon production vehicle over a standardised route.

±The figures provided are NEDC calculated from official manufacturer's tests. Figures may vary according to environment and driving style. For comparison purposes only. Real world figures may differ.

*When measured up to the panoramic roof glass.

‡If vehicle is fitted with 18" wheels the top speed will be 221km/h (137mph).

◆With Large tank. 54 litres with Eco tank.

‡‡When combined with electric motor.
